“This fall, I did a spa getaway to Niagara-on-the-Lake and it was the perfect little overnight trip to relax and unwind. I booked into the newly expanded 124 on Queen Hotel & Spa, which is situated right in the heart of the historic town and surrounded by shops, pubs and restaurants. The hotel’s revamp includes Spa at Q, a 12,000 square-foot oasis where you can enjoy a full menu of indulgent facials, signature body treatments and mani-pedis. The spa also features a skylit hydrotherapy circuit (think sensory showers, hot and warm pools, a large sauna and a steam room — there’s even a unique snow room), which you can enjoy by itself or add to a treatment. P.S. You don’t need to be a hotel guest to visit the spa, which makes it a great itinerary addition when soaking in the town’s wineries, art museums and live theatre.”
